SEAWEED EXTRACT

100% NATURAL SEAWEED EXTRACT

100% प्राकृतिक समुद्री उत्पाद

Seagold is popular natural seaweed extract used in agriculture to enhance plant growth, increase crop yield, and improve plant health. It is a balanced mixture of natural nutrients, plant hormones like auxins, cytokinins, and gibberellins, and vitamins that improve root development, flowering, and stress resistance. It can be applied as a foliar spray, through soil drenching, or seed treatment for a wide range of crops.

SPACE FOR STAMP
(1 inch x 1.5 inch)

APPLICATION STAGES

- Spray in early morning is more effective after dew evaporated first spray.
- Tillering stage or plant establishment stage or 20 days after sowing second spray.
- Pre-flowering or 40-45 days after sowing third spray.
- Post-flowering or 60-65 days after sowing.

RECOMMENDATION DOSE/ACRE

5 ml. / litre as foliar application with 100-150 liter of water.
